Hiring Manager  
ThinkGreen Afrika

Dear Hiring Manager,

I am writing to express my interest in the internship opportunity at ThinkGreen Afrika. As an undergraduate student in Software Engineering at African Leadership University, I am eager to apply my technical skills and passion for environmental sustainability to your team.

My background includes developing innovative solutions such as a smart irrigation system and a waste management platform, which aligns with your focus on using design thinking to solve complex problems. These projects have honed my problem-solving abilities and technical expertise in Python and Flask, making me well-equipped to contribute to your sustainability initiatives.

In addition to my technical skills, I have experience in data science, having interned at Academic Bridge where I analyzed educational data and built predictive models. This experience has strengthened my analytical skills and ability to work collaboratively in challenging environments.

Volunteering as an instructor and coordinator has also refined my communication skills and my commitment to making a positive impact. I am particularly drawn to ThinkGreen Afrika's mission to

integrate youth into the professional space and promote environmental sustainability, and I am excited about the opportunity to contribute to these goals.

Thank you for considering my application. I look forward to discussing how my background and skills align with the needs of your team.

Sincerely,

Anne Marie Twagirayezu
